**RESCUE  
ARROW**

## FIT FOR PURPOSE DESIGN

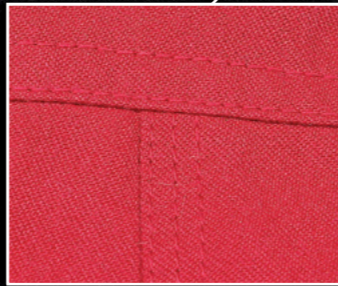

FRSA has teamed up with Weartek to deliver the Rescue Arrow, a rescue coverall like no other.

Using the best inherent flame resistant fabrics in the world, we've come up with the most comfortable, breathable and best performing rescue coverall on the market.

We know that a superior product is born from its design. That's why from the Nomex Chemigum abrasion panels on the knees & elbows to the pocket flap detailing, we've consulted with our industry partners to bring you a truly industry specific product.

**the best  
inherent flame  
resistant fabrics  
in the world**

- 5cm Reflective tape
- Nomex Chemigum Laminate Zip pullers
- Action back
- Dual size Mic loop
- Arm & leg cuff adjustable hook and loop
- Nomex Chemigum Laminate Panel on knees and elbows
- HRC 2 Arc Thermal Performance
- Nomex Chemigum Laminate pocket flaps
- Pen holder
- All pockets zippered
- Elasticated waist
- Belt loops
- Cargo pockets to accommodate A5 notepads
- Triple Stitched crotch seam
- Sternum zip with covering flap
- Additional sternum stud fastenings

The journey to find the perfect fabric for the Rescue Arrow was not an easy one. There is a lot of noise around FR fabrics these days and it is sometimes hard to distinguish between fact and fiction. We chose to go past the marketing hype and find out for ourselves with real world experience, both ours and our valued clients. What we found was the Carrington Flameban 240 outperformed every other fabric on the market.

CARRINGTON FLAMEBAN 240			
Weight	240gsm		
Composition	54% Modacrylic 44% Cotton 2% Antistatic		
Cal Rating	8.9		
Accreditations	EN ISO 14116	EN1149-3	ASTM F1930
	EN ISO 11612	EN 1149-5	EN 13758-1
	EN61482-1-1	AS NZS 4824	UVPF 50+

**“they were fantastic in the heat, I hardly knew they were on”**

Combining safety, strength and durability the Inherent FR Flameban range from Carrington is an excellent choice for a number of applications in many sectors. Developed over time to offer the end user a fabric to combat the most challenging working environments.

**Key Features**

Inherent FR characteristics imparted by modacrylic fibres in the fabric composition.

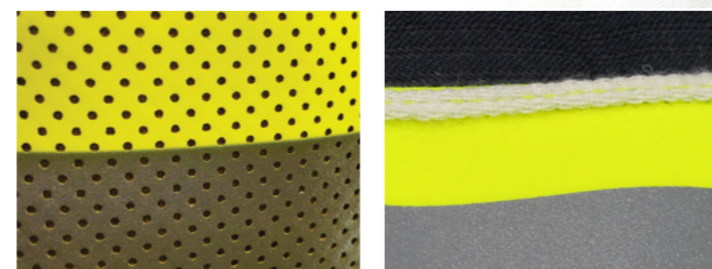

Cotton content for wearer comfort & handle, and antistatic content for performance.

**CUSTOMISED OPTIONS**

For clients that need a customised solution we can also offer that enhanced service. Feature add ons such as perforated reflective tape and trimguard are available. Specific requested fabrics including Hainsworth ECO DRY Shield or Westex DH are all possible.

Talk to us about your individuals needs & we will advise you of the best design and fit for puurpose solution for your needs.
